

### **Synopsis of Jeopardy! construction via the tools on this web site.**

1. Design the game
  - a. See Prepare Science Jeopardy Answers
  - b. Use Answer Template to handwrite in the answers that the students will have to pose questions for.
2. Download and extract the blank game that you will create.
  - a. Single Jeopardy Game files
  - b. Complete Jeopardy Game files
3. Convert your designs into gifs
  - a. Use the ChemDraw instructions and templates OR
  - b. Use the Powerpoint instructions and templates
4. The instructions in #3 include placing the created gifs into the proper folder for the game you downloaded in #2.
5. Do not rename folders or move them around within the master folder.
6. Do not rename files or gifs except as instructed in the downloaded instructions.
7. Double-click on the file single\_jeopardy.htm to launch your game.
8. Clear the browser history (describe in the "Recommendations for Using this Web Site" page) to "clear" visited links (if necessary).
9. Zip your completed game together and send to us if you would like us to post it on the communal site.
