Hi,

When I contacted Rich Saliga in Facilities who is the project manager regarding the blackboards I was told that something would be installed by Friday, August 24th. I asked about the size and was told they would be the same size that was in there before. I realize that this doesn't help much but at this point this is all the information I have.

If you would like to contact Rich Saliga his number is 624-9527, you may have more luck than I getting information.

Wish I could be more help.

Lori Lavery-Broda

Subject: Chalkboards for Lecture Halls in Chemistry

Hi:

My apologies for intruding, but someone over here in Chemistry suggested that you are the person who knows about the temporary chalkboards for the Lecture Halls in Chemistry.

I am nominally the faculty member overseeing faculty interests in the lecture hall renovation project. I would like to get confirmation about the number, size, and delivery date of the temporary chalkboards to be used in all three Chemistry lecture halls. Could you please let me know.

I tried to call, but was put through to a number that was never answered, either in person or by voice mail. And I'm guessing about the e-mail address since Lora Lavery-Broda is not a name recognized by Pitt's Accounts system

If you are not the right person to contact, would you know who I should be "talking to"?

Thanks

Joe G.
