Ed, Michael:

Sorry to disturb you again, but I do have an additional request. It has become apparent that we need the speaker's microphone/sound system installed in CSC-12, no later than Wednesday, 9/5. Is it possible for this to happen? One of my colleagues has to give a 150 minute (2.5 hrs) lecture every Wednesday night and must have a microphone for that. It is also clear that other colleagues could also benefit from having a live microphone immediately.

I'll be mostly around if you need to consult on this issue. Likewise, Greg Meisner, the Building's Instrumentation specialist, could advise you as well on our immediate needs, if you are unable to connect with me. The receptionist can always have him paged for you, in necessary.

Thanks!

Joe G.
