Ed:

Thanks. As of 4 pm Wednesday, the temporary system is working - the Chem dept "added" the microphone/wireless unit to the amp/speaker system your office provided. Greg Meisner and our e-shop craftsman (Jim McNerry) finalized the temporary sound system. I hope that will see us through for a week or so until the permanent system is installed.

We took all the keys for the cabinets in CSC-12 since they are all the same and we had to lock up the wireless unit. Toni, in CSC-232, has many extra copies if you want one or more.

Cheers,

Joe G.
