Joe,

Thanks for the information. The Classroom Management Team will be meeting next week and this will be an excellent source of information to use for our discussion.

Sam

Subject: Chem Lec Hall Renovations

Hi folks:

Yesterday, the committee charged by Craig with the Lecture Hall Renovation project met for the final time. We are impressed with a greatly improved set of facilities. We are also anxious to have this project completed, entirely, by the start of the Spring semester. To facilitate completion, we created a "Punch List" of all outstanding items that we could identify within our meeting period. We will post this on the Renovations web site and solicit additional comments from all the faculty. But in the meantime, I thought it would help to get the current draft into your hands, in the hope that you can help us to get these last items taken care of. Any of us would be happy to discuss any of the items on the list.

The report is attached as pdf file. If you would like it as a MS-Word document, let me know.

The lecture hall renovations web site is:
<http://cwt3.chem.pitt.edu/~joeg/RENOVATIONS/index.html>. But we do expect that to change shortly.

Cheers,

Joe G.
