From: Stian Angell-Olsen <angell-olsen@cyviz.com>

To: joeg@pitt.edu

Mr. Joseph J. Grabowski,

First of all we like to thank you for your interest in our Xpo.2 Stereo 3D converter, and here are some additional information:

- xpo.2 has a built in sync converter, (SOG, HV and CS) that makes it platform independent and compatible with; SGI, SUN, HP or any UNIX / NT based system.

- xpo.2 Stereo 3D Converter, is still a "fresh" product, so until we can find suitable distributors in your area, we will deliver and support our products, from our location in Norway. Together with your local hardware dealer, we will make shore that everything needed to complete the set-up in your desired environment, will be included.

- xpo.2 recommended retail price: USD 12.150,-

- xpo.1 recommended retail price: USD 8.500,-

Regarding demo, or demo unit, we may arrange a special priced evaluations unit, with possibilities to return the xpo.2 at no charge. Please contact us for more information.

Some of the current users:

- Shell, Statoil, Agip, Hydro, Wintershall
- Lockheed Martin, Saab, Volvo, Brookhaven National Lab
- NTNU, Penn State University, Northwestern University

Med vennlig hilsen - regards

Stian Angell-Olsen
