

MSDG MEETING 2-26-03

Attendees:

Joe Grabowski

Manny Schreiber

Brian Walsh

The following were the main topics of discussion:

- The discussion opened with a review of the draft of the program for the May 15 class on ICPMS. We have the speakers, Dr. Ramon Barnes and Dr. Skip Kingston; we have a draft program; and we have the place, University Club in Oakland.
- We discussed an issue concerning the lack of reimbursement for travel expenses for a speaker, Mel Park for last year's Mass Analyzers seminar. This will need to be resolved soon.
- We discussed our plans for a "super users" group meeting, currently scheduled for April 9, 2003 at the PITTCON office.
- We also continued our discussions on a long-range plan for next year's MSDG program that we initiated at our last meeting on January 29. It was noted that Mark Bier had requested funds be set aside to support an October Symposium on Proteomics and we agreed this should be factored into the plan.
